LIBRARY TRUSTEES REPORT

We wish to thank our many friends who have helped in the library during the past year.

To Mrs. J. B. Craig to whom we are indebted for the restoration of the lovely fireplace.

To Mr. Roger Bridgeman for the nucleus for a fund to enable the library to be open one evening a week during the summer months and to the many friends who contributed to this fund.

Mr. Kenneth Rounds very kindly donated a load of kindling.

Our good neighbors who have mowed the lawn and kept the grounds so neat and attractive receive our thanks.

We accepted with great regret the resignation of Mrs. Louise Berry who served the library so loyally and faithfully for over seven years.

We are fortunate in having the services of Mrs. Richard Rhodes who has had special training in library work.

ELLEN E. COBB,
EDITH BRIDGEMAN,
ANNA B. BRITTON,
Library Trustees.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Westmoreland:

I hereby submit my annual report as Superintendent of Schools.

ORGANIZATION AND ENROLLMENT

The following changes were made in the teaching positions:—Miss Arline Lund, Keene Normal School 1937, was elected to fill the vacancy caused by the resignation of Miss Lois Morrison. Miss Evelyn Pedersen, a graduate of Keene Normal School, was elected to succeed Miss Emily Atherton as teacher at East Westmoreland. Miss Pedersen's education and training included work in both the primary and upper grades.

After seven years of very efficient service as a teacher in the primary division at East Westmoreland, Miss Marion Bassett asked to be released from her teaching duties. This release was granted on November 1 and the two divisions of the school with total enrollment of twenty pupils, were united with Miss Pedersen as teacher.

The program of standard and diagnostic tests, as outlined in previous reports, will be continued. These tests together with the remedial instruction designed to correct deficiencies in the fundamental processes have become established as an important part of our instructional procedure.

Reading is the most important single subject of the elementary school and it is the basis for the successful development of the other fundamentals. Investigation has revealed that many children fail in new subjects principally because of their inability to read with understanding in these subjects.

It is now recognized that intelligent reading in such specialized subjects as mathematics, science, history and geography may be developed by gradually building up a vocabulary and establishing simple fundamental concepts. This is the aim in much of the newer reading material which is supplied in the elementary grades.

The school alone cannot carry the full responsibility for the education of children. Education consists principally of mental growth and social adjustment. The mere accumulation of knowledge is only one phase of education. Much more important is the modification in behavior tendencies and the proper adaptation of the individual to social and civic situations. There are many factors, agencies, and influences, affecting the life of the child and these combined influences over a comparatively brief period of time determine the character and stamina of the individual. It is our responsibility as teachers and parents to encourage those influences which are desirable and to discourage any factors or agencies which may be detrimental to the interests of our children.

The two institutions of outstanding importance in the education of the child are the home and the school. Each must have an understanding and a sympathy with the work of the other. The basis of this cooperation is an understanding of each other's problems. Misunderstandings frequently occur because of a difference in point of view. The parent very naturally regards his child as an individual and singles him out for preferred treatment. The teacher, however, must regard each child as a member of the school who must learn to adjust himself socially and to subordinate his interests to those of the group.

The quality of instruction in the schools of the district is of a high standard. The teachers are well qualified by education and professional training and they are interested in the welfare of the pupils as well as in the work of the school.

BUILDINGS AND EQUIPMENT

As a result of an improvement program covering a period of several years the school buildings of the district are now in excellent condition. Very few major repairs were necessary this year. Minor repairs were made as needed. The following repairs were made during the year: At Westmoreland village the walls and ceilings were painted and repairs were made to the water pump. A new flag pole was provided at the Depot school and repairs were made on the roof at East Westmoreland.

STATISTICAL REPORT 1936-1937

Total registration,	121
Average membership,	96.85
Percentage of attendance,	92.65
Cases of tardiness,	222
Number of pupils not absent or tardy,	2

There has been a decrease in the total registration for the year. The number of cases of tardiness has increased. A study of the school registers indicates that many of these cases may have been avoided. We earnestly solicit the cooperation of parents in our efforts to improve the tardiness record. It is very desirable that children be impressed with the importance of forming habits of punctuality while they are young.

Westmoreland is especially fortunate in having unusual community interests in the welfare of the schools. This interest has been manifested by the frequent contributions by the various Parent-Teacher groups and by individuals. These contributions which are much appreciated include candy and gifts at Christmas and special occasions, provision for music instruction, financial assistance for the conduct of dental clinics, instructional material, and playground apparatus.

I wish to express my appreciation of the cooperation which I have received during the year from the members of the School Board, teachers, parents, and pupils.

Respectfully submitted,
CHARLES D. DALZELL,
Superintendent of Schools.
